EVA Blocks for Orthotic Milling

After years of material and product research, we have launched a new line of special EVA materials that set the new standard for EVA orthotic milling. High quality EVA materials that make your orthotics last longer, divided in different configurations and available in all types of Shore values and colours.

Stock EVA milling blocks

Our stock EVA milling blocks are available in a standard range of colours. Directly available and with the best possible price. This block range can be customized with a bottom basis layer.

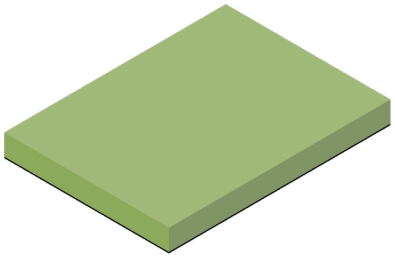

Dressed Soft

The Dressed Soft EVA block features a low density EVA layer combined with a bottom stiffening layer. The 30 Sh EVA top layer, combined with a high density layer of 80 Sh, results in an ideal orthotic block that relieve your feet as you walk. Perfect for half length orthotics.

Thickness:	Layer thickness:	Shores:	Colours:	Sizes:
35 mm	33.5 mm/ 1.5 mm	30 Sh/ 80 Sh	White/ Black	350x260x35 mm 350x300x35 mm

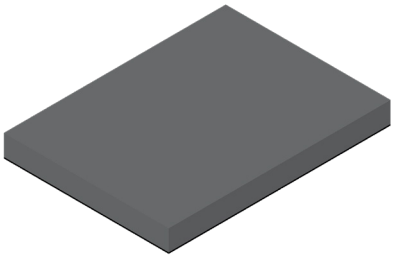

Dressed

The Dressed EVA block features a medium density EVA layer combined with a bottom stiffening layer. A 40 Sh EVA top layer combined with a bottom stiffening layer of 65 Sh. An orthotic block to comfort your feet all day, ideal for half length orthotics.

Thickness:	Layer thickness:	Shores:	Colours:	Sizes:
35 mm	33.5 mm/ 1.5 mm	40 Sh/ 80 Sh	Pistache/ Black	350x260x35 mm 350x300x35 mm

Dressed Firm

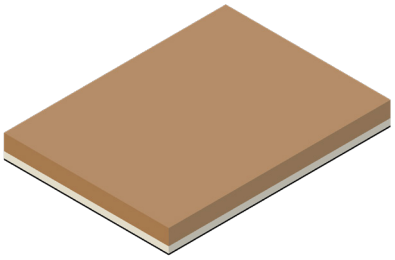

The Dressed Firm EVA block features a medium-high density EVA layer combined with a bottom stiffening layer. The 50 Sh EVA top layer, in combination with the layer of 80 Sh ends a perfect half length insole for any daily performance. Comfortable and stable support for the feet.

Thickness:	Layer thickness:	Shores:	Colours:	Sizes:
35 mm	33.5 mm/ 1.5 mm	50 Sh/ 80 Sh	Dark Grey/ Black	350x260x35 mm 350x300x35 mm

Stock EVA milling blocks

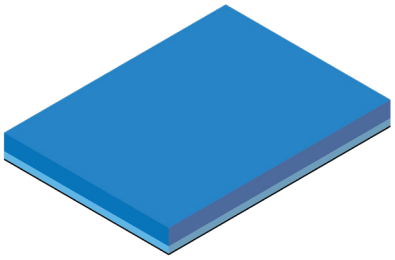

Care

The Care EVA block features two soft EVA layers combined with a bottom stiffening layer. A stabilising top layer of 30 Sh, an ultra-soft cushioning middle layer of 20 Sh and a bottom layer of 65sh. A block to give extra comfort and relieve foot pain. An orthotic block that offloads foot pressure and pressure peaks, in combination with extra cushioning.

Thickness:	Layer thickness:	Shores:	Colours:	Sizes:
35 mm	28.5 mm/ 5 mm/ 1.5 mm	30 Sh/ 20 Sh/ 80 Sh	Brown/ Beige/ Black	350x260x35 mm 350x300x35 mm

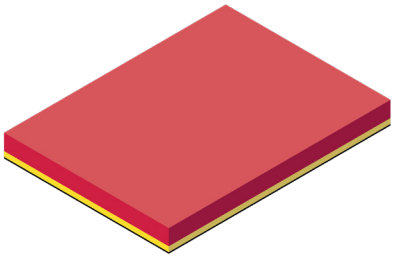

Comfort

The Comfort EVA block features a medium hardness and soft hardness EVA layer combined with a bottom stiffening layer. A stabilising top layer of 40sh, a comfort cushioning middle layer of 25sh and a bottom layer of 65sh. A real all round orthotic block that is our most used combination for custom foot orthotics. A block take the energy generated from movement and disperses it forward producing maximum efficiency and performance.

Thickness:	Layer thickness:	Shores:	Colours:	Sizes:
35 mm	28.5 mm/ 5 mm/ 1.5 mm	40 Sh/ 25 Sh/ 80 Sh	Dark Blue/ Light Blue/ Black	350x260x35 mm 350x300x35 mm

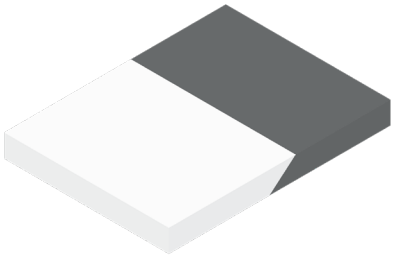

Performance

The Performance EVA block features a firm hardness and medium-soft hardness EVA layer combined with a bottom stiffening layer. A fixating top layer of 50sh, a damping middle layer of 30sh and a bottom layer of 65sh. An orthotic block designed to work with Shoes where total control is the goal. Using a denser EVA combination, this allows the insole to transfer the power output rather than absorbing it.

Thickness:	Layer thickness:	Shores:	Colours:	Sizes:
35 mm	28.5 mm/ 5 mm/ 1.5 mm	50 Sh/ 30 Sh/ 80 Sh	Red/ Yellow/ Black	350x260x35 mm 350x300x35 mm

Combi

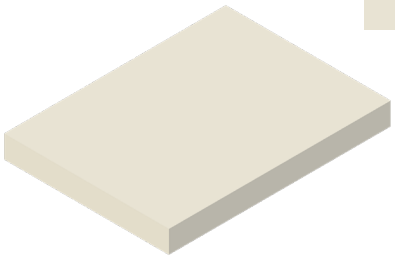

The Combi EVA block is split in two halves; medium density on one end and soft on the other. This type of block helps to provide control in the rearfoot while providing support in the forefoot.

Wedge Thickness:	Shores:	Colours:	Size:
33 mm	30 Sh/ 50 Sh	White (front)/ Dark Grey (back)	350x260x33 mm

Stock EVA Mono milling blocks

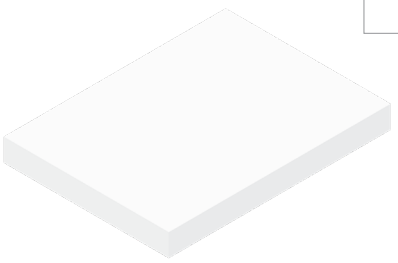

The Mono EVA blocks offer single hardness throughout the entire device, from soft to medium and through to rigid. These traditional style blocks cover the whole spectrum of custom insole prescription and are available in various size, thickness and color.

Mono Beige

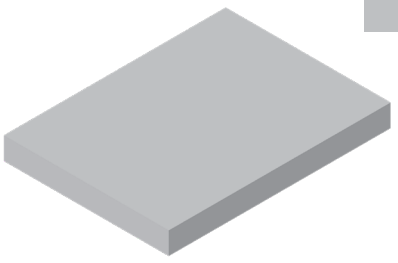

Available Thickness:	Shore:	Colour:	Sizes:
30 mm 35 mm	20 Sh	Beige	350x260x30 mm 350x260x35 mm

Mono White

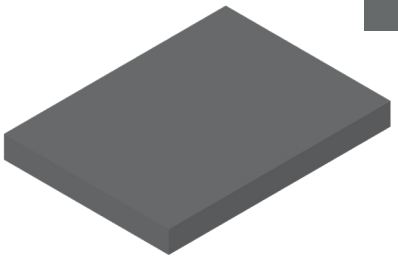

Available Thickness:	Shore:	Colour:	Sizes:
30 mm 35 mm	30 Sh	White	350x260x30 mm 350x260x35 mm

Mono Grey

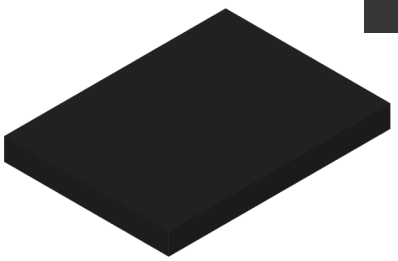

Available Thickness:	Shore:	Colour:	Sizes:
30 mm 35 mm	40 Sh	Grey	350x260x30 mm 350x260x35 mm
